## Protect Our Waterways!

### Stream Clean Ups

Local high schools, the University of the Pacific, Delta College, Friends of Smith Canal, and other various community organizations have participated in cleaning up our local waterways. By lending a hand and getting a little muddy, these community residents have become stewards of the environment, protecting our most valuable resource....water.

If your class or organization would like to participate in a Stream Clean-Up Day, call (209) 937-8791 to get more information. The staff of the Stormwater Management Program can provide some of the supplies and help you or your group organize the clean-up effort.

The solution to stormwater pollution includes an effort by everyone in the community. Help to make a difference in your community by organizing a Stream Clean-Up.
