ORDINANCE NO. 035-02

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF STOCKTON ADOPTING THE REDEVELOPMENT PLAN FOR THE SOUTH STOCKTON REDEVELOPMENT PROJECT PURSUANT TO THE COMMUNITY REDEVELOPMENT LAW OF THE STATE OF CALIFORNIA

THE CITY COUNCIL OF THE CITY OF STOCKTON DOES ORDAIN AS FOLLOWS:

Section 1. Recitals and Background Information. Pursuant to the California Community Redevelopment Law (Health & Safety Code Section 33000 et seq.) (the "Redevelopment Law"), the Redevelopment Agency of the City of Stockton (the "Agency") has prepared and submitted to the City Council for review and adoption the Redevelopment Plan for the South Stockton Redevelopment Project (the "Plan"). The Plan consists of twenty-seven (27) pages and four (4) exhibits. A copy of the Plan is on file with the City Clerk of the City of Stockton (the "City Clerk") and is incorporated in this Ordinance by this reference. The Plan proposes a program of actions and accompanying legal authority to enable the Agency to eliminate existing blighting conditions by providing financial assistance to property owners and developers, including removal of hazardous materials and assembly of land into parcels more suitable for modern, integrated development with improved pedestrian, bicycle, and vehicular circulation; by providing installation of needed public improvements; by strengthening the economic base of the area covered by the Plan (the "Project Area"); by expanding employment opportunities; by expanding opportunities for improved visual quality of commercial and industrial areas; and, by expanding and improving housing for low- and moderate-income persons.

The Project Area is situated in the City of Stockton, County of San Joaquin, State of California, and is shown on Exhibit A and more particularly described in Exhibit B, both attached hereto and by this reference incorporated herein.
The Agency has made studies of the impact of the Plan on the physical condition of structures, environmental influences, land use, and social, economic, and cultural conditions in the Project Area, and has determined that the program of redevelopment to be undertaken pursuant to the Plan will promote the proper redevelopment of the Project Area in accordance with the goals, objectives and policies of the City of Stockton General Plan (the "General Plan"), any applicable area plans, the Plan, and the Redevelopment Law.

The Planning Commission of the City of Stockton, which is the duly designated and acting official planning body of the City of Stockton, has submitted to the City Council its report and recommendation for approval and adoption of the Plan and has certified that the Plan conforms to the General Plan.

The duly elected Project Area Committee recommended approval and adoption of the Plan at its meeting held on May 23, 2002 and made certain recommendations as set forth in the accompanying staff report (the “PAC Recommendations”).

The Plan incorporates the land uses for the Project Area which are determined by the City’s General Plan. Implementation of the Plan may require, among other things, the vacating and removal of streets of record and other public rights of way, and the establishment of new street patterns, the location of sewers, water mains, lighting and utility lines and other public facilities.

The Agency has prepared and submitted and the City Council has reviewed and considered the Report to the City Council on the Plan (the "Report to Council") pursuant to Health and Safety Code Section 33352, a copy of which is on file with the City Clerk. The Report to Council is hereby incorporated in this Ordinance by this reference.

As a part of the Report to Council, the Agency has prepared and submitted to the City Council a program for the relocation of individuals and families that may be displaced as a result of implementing the Plan.

As a part of the Report to Council, the Agency has prepared and submitted to the City Council a program for implementation of the projects contemplated to be undertaken pursuant to the Plan.

The City Council is cognizant of the conditions that are imposed in the undertaking and implementation of redevelopment projects under State law, including those prohibiting discrimination because of race, color, creed, religion, sex, sexual orientation, marital status, national origin, or ancestry.

On June 18, 2002, the City Council and the Agency conducted a joint public hearing which was duly noticed in accordance with the requirements of the Redevelopment Law.

The City and Agency staff have prepared and submitted to the City Council for review an Initial Study, dated November 29, 2001 (the "Initial Study"), on the Plan and the Environmental Impact Report (the "EIR"), which was prepared pursuant to the
California Environmental Quality Act of 1970, as amended ("CEQA"), the Official State Guidelines as amended for the implementation of CEQA (the "State EIR Guidelines"), and the City of Stockton and Agency local guidelines for administering CEQA (the "Local Guidelines"). The EIR consists of the Draft EIR dated February 2002, and the Final Environmental Impact Report dated May 2002. The EIR was certified by the City Council on July 2, 2002. Copies of the EIR and the Initial Study are on file with the City Clerk.

By resolution adopted on July 2, 2002, and prior to introduction of this Ordinance, the City Council and the Agency have adopted mitigation measures and related monitoring programs, and made certain findings and statements in compliance with Sections 15091 and 15168 of the State EIR Guidelines.

At or prior to the joint public hearing on the Plan, the City Council and Agency received certain written comments on the Plan. Prior to the introduction of this Ordinance, by City Council resolution dated July 2, 2002, and pursuant to Health & Safety Code Section 33363, the City Council prepared and adopted its responses and findings (the "Findings") in writing to all written comments it received in connection with consideration of adoption of the Plan.

Section 1. Findings and Determinations. In accordance with California Health and Safety Code Section 33367, and based upon the evidence contained in the Report to Council, the EIR, the Initial Study, the Findings and other documents prepared in the Plan adoption process and on evidence presented at the public hearing, it is hereby found and determined that:

a. The above recitals and background information are true and correct.

b. The Project Area is a blighted area, the redevelopment of which is necessary to effectuate the public purposes declared in, and it qualifies as an eligible area under, the Redevelopment Law (see particularly Sections A, B, D, and E and Appendices 1 and 2 of the Report to Council regarding evidence with respect to this finding).

c. The time limitations that are contained in the Plan are reasonably related to the proposed projects to be implemented in the Project Area and to the ability of the Agency to eliminate blight within the Project Area (see particularly Sections A, B, D, and E and Appendices 1 and 2 of the Report to Council regarding evidence with respect to this finding). As indicated in Sections A and E of the Report to Council and accompanying tax increment projections, it will require a lengthy period to generate sufficient funds to pay for the identified programs and activities to alleviate blight in the Project Area, so that it will be necessary for the Agency to have twenty years from the date of Plan adoption to incur debt to pay for the necessary programs and activities, thirty years for the Plan to be effective, and forty-five years to receive tax increment revenue in order to repay the debt incurred for the necessary programs and activities.
d. The Plan would redevelop the Project Area in conformity with the Redevelopment Law and would be in the interest of the public peace, health, safety, and welfare; and the implementation of the Plan would promote the public peace, health, safety and welfare of the City of Stockton and would effectuate the purposes and policy of the Redevelopment Law (see particularly Sections A, B, and D and Appendices 1 and 2 of the Report to Council regarding evidence with respect to this finding).

e. The Plan conforms to the City of Stockton General Plan including, but not limited to, the Housing Element of the General Plan, which Housing Element substantially complies with the requirements of Article 10.6 (commencing with Section 65580 of Chapter 3 of Division 1 of Title 7 of the Government Code) (see particularly Part V of the Plan and Sections H and J of the Report to Council regarding evidence with respect to this finding).

f. The adoption and implementation of the Plan is economically sound and feasible (see particularly Sections A and E of the Report to Council regarding evidence with respect to this finding).

g. The Plan will afford maximum opportunity, consistent with the sound needs of the City of Stockton, as a whole, for the redevelopment of the Project Area by private enterprise (see particularly Part VI.C. of the Plan and the Agency’s adopted Rules for Owner Participation and Business Tenant Preference regarding evidence with respect to this finding).

h. The Agency has a feasible method or plan for the relocation of families and persons which may be displaced from the Project Area if the Plan may result in the temporary or permanent displacement of any occupants of housing facilities in the Project Area (see particularly Section F the Report to Council and the Agency’s adopted Relocation Guidelines regarding evidence with respect to this finding).

i. There are, or shall be provided, in the Project Area or in other areas not generally less desirable in regard to public utilities and public and commercial facilities and at rents or prices within the financial means of the families and persons who may be displaced from the Project Area, decent, safe and sanitary dwellings equal in number to the number of, and available to, such displaced families and persons and reasonably accessible to their places of employment. Families and persons shall not be displaced prior to the adoption of a relocation plan pursuant to Sections 33411 and 33411.1 of the Community Redevelopment Law. Dwelling units housing persons and families of low or moderate income shall not be removed or destroyed prior to the adoption of a replacement housing plan pursuant to Sections 33334.5, 33413, and 33413.5 of the Community Redevelopment Law (see particularly Section F of the Report to Council regarding evidence with respect to this finding).

j. Pursuant to Health and Safety Code Section 33367(e), the City Council is satisfied that permanent housing facilities will be available within three (3) years from the time occupants of the Project Area, if any, are displaced and that
pending the development of such facilities, there will be available to such displaced occupants adequate temporary housing facilities at rents comparable to those in the community at the time of their displacement (see particularly Sections A, C, and F of the Report to Council regarding evidence with respect to this finding).

k. The Project Area contains approximately 3,762 acres. All noncontiguous areas of the Project Area are blighted or necessary for effective redevelopment, and are not included in the Project Area for the purpose of obtaining tax increment revenues from the area pursuant to Health and Safety Section 33670 without substantial justification for their inclusion (see particularly Sections A, B, D, and E and Appendices 1 and 2 of the Report to Council regarding evidence with respect to this finding).

l. The inclusion of any lands, buildings, or improvements which are not detrimental to the public health, safety, or welfare is necessary for the effective redevelopment of the Project Area of which they are a part; and these lands, buildings or improvements are not included for the purpose of obtaining the allocation of tax increment revenues from such area pursuant to Health and Safety Code Section 33670 without other substantial justification for their inclusion (see particularly Sections A, B, D, and E and Appendices 1 and 2 of the Report to Council regarding evidence with respect to this finding).

m. In order to implement and facilitate the effectuation of the Plan hereby approved and adopted, certain official action must be taken by this City Council with reference to, among other things, the establishment of new street patterns, the location of sewer and water mains, lighting and utility lines and other public facilities and other public action, and accordingly, this Council hereby (i) pledges its cooperation in helping to implement the Plan; (ii) requests the various officials, departments, boards, and agencies of the City having administrative responsibilities in the Project Area likewise to cooperate to such end and to exercise their respective functions and powers in a manner consistent with the Plan; (iii) stands ready to consider and take appropriate action upon proposals and measures designed to effectuate the Plan; and (iv) intends to undertake and complete any proceedings necessary to be implemented by the community under the provisions of the Plan.

n. The elimination of blight and the redevelopment of the Project Area could not reasonably be expected to be accomplished by private enterprise acting alone without the aid and assistance of the Agency (see particularly Sections A and D of the Report to Council regarding evidence with respect to this finding).

o. The condemnation of real property, if any, is necessary to the execution of the Plan and adequate provisions have been made for payment of property to be acquired as provided by law (see particularly Sections A, B, D, E, and F of the Report to Council regarding evidence with respect to this finding). As indicated in Sections A and B of the Report to City Council, the Project Area is characterized by parcels for which the Agency's land assembly authority is needed to facilitate such reuse. As indicated in Sections E and F of the Report to Council and Part VI.B of the
Plan, the Agency will have and can commit the resources necessary to provide full compensation for any land acquisition in accordance with the requirements of law.

p. The development of the public improvements set forth in the Plan are of benefit to the Project Area and to the immediate neighborhood in which the Project is located; no other reasonable means of financing such improvements are available to the community; and the payment of funds for the acquisition of land for and the cost of such improvements will assist in eliminating one or more blighting conditions in the Project Area or provide housing for low- or moderate-income persons. Based on these findings, the Agency is authorized to pay all or a part of the value of the land for and the cost of the installation and construction of the public improvements set forth in the Plan, as permitted by Health and Safety Code Section 33445 (see particularly Sections A, B, C, D, and E and Appendices 1 and 2 of the Report to Council regarding evidence with respect to this finding).

q. The Project Area is predominantly urbanized as defined by subdivision (b) of Section 33320.1 of the in the Redevelopment Law (see particularly Section A of the Report to Council regarding evidence with respect to this finding).

r. The Project Area does not include agricultural land or open space land that is enforceably restricted as defined in Health & Safety Code Section 33321.5(a). (See Chapter 4.2 of the Draft EIR and Sections A and B of the Report to Council regarding evidence with respect to this finding.)

Section 2. Overruling of Objections. All written and oral objections to the Plan are hereby overruled. In accordance with Health and Safety Code Section 33363, the reasons for overruling all written and oral objections are more fully set forth in the Findings.

Section 3. Approval of Redevelopment Plan. The Plan for the Project Area, having been duly received and considered, is approved and adopted with the PAC Recommendations, which are to be incorporated into the Plan (the "Approved Plan"). The City Clerk is hereby directed to file a copy of the Approved Plan with the minutes of this meeting. The Approved Plan, which contains, among other elements, the statement of the purpose and intent of the City Council with respect to the Project Area, is incorporated in this Ordinance by reference. The Approved Plan is hereby designated as the official Redevelopment Plan for the Project Area. It is the purpose and intent of this City Council that the Approved Plan be implemented in the Project Area. A copy of this Ordinance shall be transmitted to the Agency and the Agency is vested with the responsibility of implementing the Approved Plan.

Section 4. Specific Purposes of City Council. It is the specific purpose and intent of the City Council that the Approved Plan be implemented in order to:

a. Eliminate the conditions of blight in the Project Area;

b. Ensure, as far as possible, that the causes of the blighting conditions will be either eliminated or protected against;
c. Encourage and ensure the appropriate development of the Project Area; and

d. Encourage and foster the economic revitalization of the Project Area.

Neither the list of purposes set forth above nor the lists of goals and objectives set forth in the Approved Plan and the Report to Council are intended to reflect a particular priority order. Rather, it is the intention of the City Council that the Approved Plan be implemented in a manner that will achieve an appropriate balance of the listed purposes, goals, and objectives taking into account redevelopment needs and opportunities that arise from time to time.

Section 5. Severability. If any provision, section, subsection, subdivision, sentence, clause or phrase of this Ordinance or the Approved Plan is for any reason held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining portion or portions of the Ordinance or the Approved Plan. In the event that any portion of the Project Area shall be determined to have been invalidly or incorrectly included in the Project Area, such invalidly or incorrectly included portion of the Project Area shall be deemed severable from the remainder of the Project Area, and the remainder of the Project Area shall remain fully subject to the provisions of the Approved Plan.

Section 6. Recordation. The Executive Director of the Agency is hereby directed to record the Approved Plan in compliance with the provisions of Health & Safety Code Section 33373 and Government Code Section 27295.

Section 7. Publication; Effectiveness. This Ordinance shall be published once in The Record, a newspaper of general circulation printed and published in San Joaquin County and circulated in the City of Stockton, within fifteen (15) days from and after its adoption, and shall take effect and be enforced thirty (30) days after its adoption.

The foregoing Ordinance was duly introduced and finally adopted before the City Council of the City of Stockton, County of San Joaquin, at a regular meeting of the City Council held on the 2nd day of July 2002.

PASSED APPROVED and ADOPTED JUL 2 2002.
