### Comments

**From Request 74806:**
- Code: TR008
- Description: Misc Tree issue

Details: Ask Stockton Request #4845376 - Three (3) trees in front of 1702 Venetan Drive are dangerous. The roots are damaging the sidewalks. The trees produce golf ball sized balls. The damaged sidewalks and the balls are dangerous trip hazards. The roots are intruding into the yard of the home and are getting close to the cement slab. They will grow into and crack the slab. Now is a good time to remove the trees while the leaves are gone. Would the City please remove the trees?

**From Report:**
- Date: 12/16/2019, 7:57:22AM
- Comments: The trees here are in satisfactory condition. Sidewalk is uneven and displaced due to tree roots. Creating SR for Sidewalk inspectors. Door hangar left.

Inspection for proper completion of tree removal permit.

6/7/2018 11:19:06AM
Tree 2352 is a glossy-privet which is not a city tree and is also now a 10" stump.
Tree 2636 is still here.

6/7/2018 11:19:42AM
Map/inventory needs to be updated to show tree 2351 as a non-city tree.

6/7/2018 2:02:09PM

Tree 2849 13” dbh dead sweetgum tree. Likely cause of dying is evidence of hit by vehicle near base of tree.

Small 3” dbh red maple likely died due to lack of care since being planted.

8/6/2019 11:44:12AM

Customer will need to discuss planting new trees with Community Development.

From Request 66222:

- Code: SW08
- Description: Claim
- Details: We received the attached claim. The claimant tripped on the raised sidewalk patch on 01/29/19 and sustained injury. My inspection photos show custom red pavement between the curb and sidewalk, and a sidewalk tree approximately 6’ feet from the condition. It appears the sidewalk was uplifted by the tree roots. Checking for any PW records for the trees and sidewalk at the location. Need to verify if the trees belong to the City and if the City or the property owner would be responsible for the

Per my inspection, the sidewalk was uplifted by City tree roots. There are existing ac patching, but the sidewalk will need additional patching to make it safe.
