Resource List

for JOB SITE COLLECTIONS

See reverse side for drop-off facilities if you haul your own materials

Permitted Waste Haulers

materials that will be recycled

Identify yourself as a C&D customer to ensure your load is weighed. Ask your hauler for recycling and waste disposal receipts and attach them to your final Recycling Report that you submit to the City within 60 days of job completion. Failure to comply may result in fees and / or citations.				Asphalt (ask about shingles)	Brick	Cardboard	Concrete	Dirt/Clean Fill	Drywall/Sheetrock	Lumber	Glass	Plastic	Roofing Materials	Metals	Mixed Recyclable Materials	Yard Trimmings	Salvaged Items (lumber, fixtures, etc)	Construction and Demolition Disposal	Additional Notes

Waste Management / Stockton Scavengers	1240 Navy Dr.	Stockton	209-946-5721	X	X	X	X	X	X	X	X	X		X	X	X		X	Permitted waste hauler

Important Notes:

If you are operating under a permit application issued by the City of Stockton, **you must use a City of Stockton permitted waste hauler, or a permitted commercial recyclable material collector for the collection/hauling** of your waste materials. Always ask the hauler for your receipts and/ or weight tickets.

Permit applicants / holders may **self haul** their OWN materials from their OWN job site with their OWN vehicles, equipment and workers. The reverse side provides drop-off facilities that will recycle your self hauled materials.

Source separated recyclables, such as clean metal (i.e. AC units, water heaters), wood, concrete, or drywall / sheetrock may be collected and hauled by a permitted **Commercial Recyclable Material Collector** according to Stockton Municipal Code 8.04.270 & 8.04.280

Commercial Recyclable Material Collectors (i.e. junk haulers, metal haulers) may be added to this list if a Recyclable Material Collector Permit has been issued by the City of Stockton. This permit is free of charge and the only requirement for this permit is that these collectors recycle at least 90% of each load they collect, and that they report quarterly all materials collected, recycled and disposed of to the City of Stockton Solid Waste & Recycling division. Please call (209) 937-7579 if you like to receive an application for the Recyclable Material Collector Permit.

Commercial Recycles Material Collectors (CRMCs)

These collectors are authorized by the City of Stockton to collect recyclable materials
